[Click here](#) to watch the fascinating video, then visit onlineaquabar.com, click the 'contact' link to submit your e-mail address (before the show only) then visit **Booth 336** to be eligible to **Win a Blending LED Light & Water Mister** to be given away during **EXPO '07!**

Portable Waterfall Bar & Signage/Merchandise Display 'Raining Profits'

Since its debut at last year's **Nightclub & Bar Show** (Las Vegas) and **The Bar Show** (NYC), **Dallas-based AQUABAR** has evolved into **five-foot-tall WaterSign**, with an optional aluminum stand **on wheels** that raises the eye-catching height of the brilliant LED-lit, promotional waterfall experience to almost nine feet, while providing **instant portability** for indoor/outdoor restaurant chains, upscale hotels, and luxury casinos to roll it outdoors/poolside then to dining areas.

And because this **see-through-acrylic** waterfall can be seen and heard from behind, we're getting pure 'marquee' use, with the proprietary units 'performing' inside entryways and lobbies, as well as placement in retail store windows. With no hoses or top reservoir to frame in or hide, **AQUABAR** creates '**instant ambiance**' and attention wherever it goes. This hand-crafted, luxurious portable water feature appeared backstage at last summer's **Miss Universe Pageant** in Hollywood and numerous private celebrity events, while serving as a unique 'bar back' inside super-chic nightclubs, celebrity watering holes, upscale casinos and hotels across the country.
