

AQUABAR

THANKS VEGAS!

AQUABAR—The World's First Self-Contained Waterfall, Bar and Signage Device looks forward to seeing all of you again at next year's Nightclub and Bar Show! Thanks to all of you, our valued clients, for making our second year at this show the best ever!

THE BIG SPLASH CONTINUES!

In addition to its original **bar-back use**, the new **aluminum stand with wheels** raises the impact level of the 5 foot tall unit almost 4 feet higher and provides **instant portability**

for **casinos, upscale hotels, and catering venues** to roll it poolside, then later to dining. And because the falling water can be seen and enjoyed front and back, we're getting more 'marquee' *WaterSign* usage, with the proprietary units placed inside **entryways, lobbies, and display windows** as an immediate attention-getter for signage and event and/or product promotions.
